Event Planning Proposal

Oasis Events Banquet

100 pts

Unit 2 — Word Processing · Variation Project Option B

/ 100 points

How to use this instruction sheet: Download the starter file from the Project Grader, open it in Microsoft Word 365, and keep this sheet open beside it. Work through each task in order. Each task tells you what to do, why it matters, and where to find the tool — but you must figure out the exact steps yourself. That's the learning.

Screen Recording Requirement

To verify your own work, record yourself completing 3 tasks while working on this project.

- Use Xbox Game Bar (press Win+G) or Loom (loom.com — free account) to record your screen
- Show yourself completing any 3 tasks from the list below
- Submit the recording to Canvas along with your completed file

D1 — Manage Documents

22 points (10 tasks)

2

Task 1 — Set 1-inch margins on all sides

WHY THIS MATTERS

1-inch margins are the professional standard for business proposals and ensure the document prints correctly on any printer.

WHERE TO FIND IT

Layout tab → Margins → Custom Margins → set all to 1".

HOW YOU'LL KNOW IT WORKED

The ruler shows the text area starting at exactly 1" from all edges.

2

Task 2 — Set page orientation to Portrait

WHY THIS MATTERS

Proposals are typically Portrait orientation. The Budget section will use Landscape as a separate task later.

WHERE TO FIND IT

Layout tab → Orientation → Portrait.

HOW YOU'LL KNOW IT WORKED

Pages are taller than wide.

2

Task 3 — Apply the "Lines (Stylish)" style set

WHY THIS MATTERS

The Lines (Stylish) set uses elegant line-based design elements that give the proposal a sophisticated, event-industry appropriate look.

WHERE TO FIND IT

Design tab → Style Sets gallery → hover to find "Lines (Stylish)" → click it.

HOW YOU'LL KNOW IT WORKED

Headings and text adopt an elegant, line-accented style.

3

Task 4 — Insert a header with the Oasis Events logo placeholder and proposal number

WHY THIS MATTERS

A branded header on every page identifies the proposal as coming from Oasis Events and helps the client find the correct proposal among multiple vendors.

WHERE TO FIND IT

Insert → Header → Edit Header. Insert the logo image (or a [LOGO] placeholder text) and type the proposal number OE-2026-042.

HOW YOU'LL KNOW IT WORKED

Every page header shows the company identifier and proposal number.

2

Task 5 — Insert a footer with "Oasis Events · Confidential · Page X of Y"

WHY THIS MATTERS

This footer format tells the client who sent it, that it's confidential, and helps them track page completeness.

WHERE TO FIND IT

Insert → Footer → Edit Footer. Type "Oasis Events · Confidential · " then insert the page number using Header & Footer tools.

HOW YOU'LL KNOW IT WORKED

Every page shows this exact footer format with the correct page number.

2

Task 6 — Insert page numbers in the footer

WHY THIS MATTERS

Page numbers in a multi-section proposal help clients reference specific sections during discussions.

WHERE TO FIND IT

While in the footer, place cursor where the number should go. Header & Footer tab → Page Number → Current Position.

HOW YOU'LL KNOW IT WORKED

Each page shows its sequential number in the footer.

2

Task 7 — Add a light "PROPOSAL" watermark to all pages

WHY THIS MATTERS

A watermark clearly communicates that this is a proposal (not a final contract), preventing misunderstandings.

WHERE TO FIND IT

Design tab → Page Background → Watermark → Custom Watermark → Text watermark → type PROPOSAL → set color to light gray.

HOW YOU'LL KNOW IT WORKED

The word "PROPOSAL" appears diagonally in very light gray behind all page content.

2

Task 8 — Set document properties: Title = "Corporate Gala Proposal", Company = "Oasis Events"

WHY THIS MATTERS

Document properties help clients organize and identify proposals when saving them in their vendor files.

WHERE TO FIND IT

File → Info → Properties panel → fill in Title and Company fields.

HOW YOU'LL KNOW IT WORKED

File → Info shows the correct Title and Company.

2

Task 9 — Share the document with a colleague using the Share dialog

WHY THIS MATTERS

Real proposals go through internal review before client delivery. Using the Share feature demonstrates professional collaboration workflow.

WHERE TO FIND IT

File → Share → Share with People. Enter a colleague's email address. Choose "Can edit" or "Can view". Click Share.

HOW YOU'LL KNOW IT WORKED

The Share pane confirms the document was shared, or you see the colleague listed in the Shared with section.

3

Task 10 — Save the completed proposal as a PDF for client delivery

WHY THIS MATTERS

Clients receive proposals as PDFs to prevent accidental editing and ensure the formatting looks exactly as intended on their screen.

WHERE TO FIND IT

File → Save As → change type to PDF → Save.

HOW YOU'LL KNOW IT WORKED

A PDF version of the proposal exists in your folder.

D2 — Format Text & Paragraphs

20 points (8 tasks)

2

Task 11 — Use Find & Replace to replace "TBD" with specific venue and event details

WHY THIS MATTERS

The starter file uses "TBD" as placeholders for details that are now confirmed. Replacing them personalizes the proposal for the specific client.

WHERE TO FIND IT

Ctrl+H → Find What: TBD → Replace With: the specific detail (e.g., "The Grand Ballroom NV"). Click Replace All.

HOW YOU'LL KNOW IT WORKED

No instances of "TBD" remain in the document.

2

Task 12 — Apply the Title style to the proposal title on the cover page

WHY THIS MATTERS

The Title style creates a bold, prominent cover page heading that communicates the proposal's purpose immediately.

WHERE TO FIND IT

Click the proposal title → Home tab → Styles → Title.

HOW YOU'LL KNOW IT WORKED

The cover page title appears in a large, styled font.

3

Task 13 — Apply Heading 1 to each major proposal section

WHY THIS MATTERS

Section headings using Heading 1 allow the TOC to be generated automatically and help the client navigate to specific sections.

WHERE TO FIND IT

Click each section heading → Home tab → Styles → Heading 1. Repeat for all sections.

HOW YOU'LL KNOW IT WORKED

All section headings use the same prominent Heading 1 style.

3

Task 14 — Apply Heading 2 to all subsections within each section

WHY THIS MATTERS

Heading 2 creates sub-navigation within each section, showing the proposal's detailed structure.

WHERE TO FIND IT

Click each subsection heading → Home tab → Styles → Heading 2.

HOW YOU'LL KNOW IT WORKED

Subsections have a distinct but subordinate heading style compared to Heading 1.

2

Task 15 — Set body text line spacing to 1.5

WHY THIS MATTERS

1.5 spacing gives the proposal an open, easy-to-read appearance that looks more polished than single spacing for a client-facing document.

WHERE TO FIND IT

Ctrl+A → Home tab → Line and Paragraph Spacing → 1.5.

HOW YOU'LL KNOW IT WORKED

Body text has visible space between lines, more than single but less than double.

2

Task 16 — Apply text effects (shadow) to the proposal title

WHY THIS MATTERS

A subtle text shadow effect makes the cover page title more visually impactful, which is appropriate for an event planning company's proposal.

WHERE TO FIND IT

Select the title text. Home tab → Font group → Text Effects button (the A with a glow) → Shadow → choose a shadow style.

HOW YOU'LL KNOW IT WORKED

The title text has a visible shadow effect behind it.

3

Task 17 — Insert a section break before the Budget section and change it to Landscape orientation

WHY THIS MATTERS

The Budget table is wide (5 columns) and needs Landscape orientation to display without cramping. A section break lets only that page be Landscape.

WHERE TO FIND IT

Place cursor before the Budget section heading. Layout → Breaks → Next Page (section break). Click in the Budget section → Layout → Orientation → Landscape.

HOW YOU'LL KNOW IT WORKED

The Budget section pages are wider than the rest of the document (Landscape). Other sections remain Portrait.

3

Task 18 — Use Format Painter to consistently apply the "Key Term" character style throughout

WHY THIS MATTERS

Consistent formatting of key terms (venue name, service names) helps clients quickly identify important specifics as they read.

WHERE TO FIND IT

Apply the Key Term style to one instance manually. Then double-click Format Painter (double-click locks it on). Apply to each key term. Press Escape when done.

HOW YOU'LL KNOW IT WORKED

All key terms throughout the proposal have the same consistent character formatting.

D3 — Tables & Lists

14 points (6 tasks)

3

Task 19 — Create a 5-column budget breakdown table

WHY THIS MATTERS

The budget table (Service | Vendor | Unit Cost | Quantity | Total) organizes cost information professionally and makes pricing transparent to the client.

WHERE TO FIND IT

Insert tab → Table → select 5 columns and enough rows for all line items. Enter the budget data from the starter file.

HOW YOU'LL KNOW IT WORKED

A 5-column table appears with all budget line items entered.

2

Task 20 — Merge the top row cells to create a "Budget Summary" title spanning all columns

WHY THIS MATTERS

A merged title row identifies the table and makes it look like a professional financial summary.

WHERE TO FIND IT

Select all 5 cells in row 1. Table Layout → Merge Cells. Type "Budget Summary".

HOW YOU'LL KNOW IT WORKED

Row 1 is a single wide cell with the title "Budget Summary".

2

Task 21 — Sort the vendor table by Total Cost from lowest to highest

WHY THIS MATTERS

Sorting by cost (ascending) shows the client smaller line items first, easing them into the bigger costs gradually.

WHERE TO FIND IT

Click in the table. Table Layout → Data → Sort. Select the Total Cost column. Choose Number, Ascending.

HOW YOU'LL KNOW IT WORKED

The row with the smallest cost appears first, and items increase in price from top to bottom.

2

Task 22 — Create a numbered timeline of event day activities

WHY THIS MATTERS

A numbered timeline shows the client the sequence of events for the gala day, which helps them coordinate their own team.

WHERE TO FIND IT

Type each timeline entry. Select all. Home tab → Numbering button.

HOW YOU'LL KNOW IT WORKED

Timeline entries are numbered in chronological order.

2

Task 23 — Create a bulleted list of standard included services

WHY THIS MATTERS

Bullets clearly distinguish included services from the paid items in the budget table, preventing client confusion.

WHERE TO FIND IT

Type each included service. Select all. Home tab → Bullets button.

HOW YOU'LL KNOW IT WORKED

Each standard service has a bullet point.

3

Task 24 — Change the bullet format for the premium services list to a custom symbol (★)

WHY THIS MATTERS

Using a star symbol for premium services visually distinguishes them as a special tier, which is effective marketing.

WHERE TO FIND IT

Select the premium services list. Home tab → Bullets dropdown arrow → Define New Bullet → Symbol → find ★ (Wingdings or Symbol font) → OK.

HOW YOU'LL KNOW IT WORKED

Premium service items use a ★ star bullet instead of the standard •.

D4 — References

10 points (3 tasks)

3

Task 25 — Insert a Table of Contents for the proposal

WHY THIS MATTERS

A TOC gives clients an overview of the proposal structure and lets them jump directly to sections like Pricing or Timeline.

WHERE TO FIND IT

Place cursor on a blank page near the beginning. References tab → Table of Contents → choose an Automatic style.

HOW YOU'LL KNOW IT WORKED

A TOC appears listing all proposal sections with page numbers.

3

Task 26 — Customize the TOC with right-aligned page numbers and dot leaders

WHY THIS MATTERS

Dot leaders (.....) and right-aligned page numbers are the standard professional format for a proposal TOC.

WHERE TO FIND IT

References → Table of Contents → Custom Table of Contents → choose a dotted Tab leader → make sure right-align page numbers is checked → OK.

HOW YOU'LL KNOW IT WORKED

The TOC shows section names on the left, dots across, and page numbers right-aligned.

4

Task 27 — Insert a footnote on the pricing section noting terms and conditions

WHY THIS MATTERS

Pricing footnotes protect Oasis Events legally by noting that prices are estimates subject to final contract terms.

WHERE TO FIND IT

Place cursor after the total price or at the end of the pricing section. References → Insert Footnote. Type the T&C; note at the bottom of the page.

HOW YOU'LL KNOW IT WORKED

A superscript number appears in the pricing section with a corresponding note at the bottom of that page.

D5 — Graphic Elements

20 points (7 tasks)

3

Task 28 — Insert a venue floor plan image on the Event Layout page

WHY THIS MATTERS

A visual floor plan helps clients understand the room setup and placement of tables, stage, and other elements.

WHERE TO FIND IT

Insert tab → Illustrations → Pictures → This Device. Browse to the floor plan image. Insert it in the Event Layout section.

HOW YOU'LL KNOW IT WORKED

A floor plan image appears in the Event Layout section of the proposal.

2

Task 29 — Apply the "Bevel Perspective" picture style to the venue image

WHY THIS MATTERS

A bevel perspective effect gives the floor plan a slight 3D tilt, making it look more like an actual architectural rendering.

WHERE TO FIND IT

Click the venue image. Picture Format tab → Picture Styles gallery → find "Bevel Perspective" → click it.

HOW YOU'LL KNOW IT WORKED

The floor plan image has a slight 3D bevel/perspective effect applied.

2

Task 30 — Set text wrapping to "Square" for the floor plan image

WHY THIS MATTERS

"Square" wrapping keeps descriptive text in a neat rectangle around the image, which looks professional in a proposal.

WHERE TO FIND IT

Click the image. Picture Format → Wrap Text → Square.

HOW YOU'LL KNOW IT WORKED

Text wraps in a rectangular shape around all four sides of the image.

3

Task 31 — Insert a SmartArt Process diagram showing the event planning timeline

WHY THIS MATTERS

A visual planning timeline shows clients the sequence of milestones from contract signing to event day, demonstrating organization and professionalism.

WHERE TO FIND IT

Insert → SmartArt → Process category → choose a process layout → OK. Enter each planning milestone in the text pane.

HOW YOU'LL KNOW IT WORKED

A connected sequence of shapes shows the planning milestones in order.

3

Task 32 — Format the SmartArt with a colorful accent style

WHY THIS MATTERS

A colorful SmartArt style reflects the vibrant, celebratory nature of event planning and makes the proposal more visually engaging.

WHERE TO FIND IT

Click the SmartArt. SmartArt Design tab → SmartArt Styles group → Change Colors → choose a "Colorful" option.

HOW YOU'LL KNOW IT WORKED

The SmartArt shapes use multiple colors rather than a monochromatic scheme.

3

Task 33 — Insert a text box with the Oasis Events tagline on the cover page

WHY THIS MATTERS

A tagline text box reinforces the brand and can be positioned precisely anywhere on the cover page, independent of the normal text flow.

WHERE TO FIND IT

Insert tab → Text group → Text Box → Draw Text Box. Drag to draw a box on the cover page. Type the tagline: "Creating Extraordinary Moments in Las Vegas".

HOW YOU'LL KNOW IT WORKED

A text box containing the tagline appears on the cover page and can be moved independently.

4

Task 34 — Add descriptive alt text to all graphic elements in the document

WHY THIS MATTERS

Professional proposals must be accessible to all recipients, including those using assistive technology.

WHERE TO FIND IT

Right-click each image, SmartArt, and text box → Edit Alt Text → type a description of what each element shows.

HOW YOU'LL KNOW IT WORKED

Every graphic element has alt text visible in the Alt Text pane.

D6 — Collaboration

14 points (6 tasks)

2

Task 35 — Add a comment on the budget table flagging an item for client approval

WHY THIS MATTERS

Flagging uncertain budget items for client input before finalizing prevents billing disputes later.

WHERE TO FIND IT

Select the budget item to flag. Review → New Comment. Ask the client to confirm approval of the specific item.

HOW YOU'LL KNOW IT WORKED

A comment bubble appears connected to the flagged budget item.

2

Task 36 — Reply to the existing comment from the sales manager

WHY THIS MATTERS

Internal replies on a proposal show that the team has discussed and addressed the manager's feedback before delivery.

WHERE TO FIND IT

Find the sales manager comment in the sidebar → click Reply → type your response.

HOW YOU'LL KNOW IT WORKED

Your reply appears threaded below the sales manager's comment.

2

Task 37 — Delete the comments that have been resolved

WHY THIS MATTERS

Deleting resolved comments cleans up the proposal before client delivery — clients should not see internal review conversations.

WHERE TO FIND IT

Right-click each resolved comment → Delete Comment.

HOW YOU'LL KNOW IT WORKED

The deleted comments no longer appear in the document.

3

Task 38 — Enable Track Changes and revise the contract terms section

WHY THIS MATTERS

Track Changes preserves the original contract language while showing what was proposed to change, which is critical for legal review.

WHERE TO FIND IT

Review tab → Track Changes → Track Changes (toggle on). Make revisions to the contract terms text.

HOW YOU'LL KNOW IT WORKED

Revisions to the contract terms appear with markup (insertions in color/underlined, deletions in strikethrough).

2

Task 39 — Accept the client's requested revisions

WHY THIS MATTERS

Accepting the approved revisions incorporates the client's requested changes into the final contract terms.

WHERE TO FIND IT

Review → Changes → Accept → Accept All Changes.

HOW YOU'LL KNOW IT WORKED

All accepted changes are incorporated with no markup remaining.

3

Task 40 — Reject the tracked change that altered the pricing without authorization

WHY THIS MATTERS

Unauthorized pricing changes could expose Oasis Events to financial loss. Rejecting that change protects the agreed-upon pricing structure.

WHERE TO FIND IT

Review → Next to find the unauthorized pricing change. Click Reject (not Reject All) to restore the original price.

HOW YOU'LL KNOW IT WORKED

The original authorized price is restored for that line item.
