Event Planning Proposal

Oasis Events — Corporate Gala Proposal

100 pts
/ 100 points

Unit 2 — Word Processing · Variation 2

How to use this instruction sheet: Download the starter file from the Project Grader, open it in Microsoft Word 365, and keep this sheet open beside it. Work through each task in order. Each task tells you what to do, why it matters, and where to find the tool — but you must figure out the exact steps yourself. That's the learning.

Screen Recording Requirement

To verify your own work, record yourself completing 3 tasks while working on this project.

- Use Xbox Game Bar (press Win+G) or Loom (loom.com — free account) to record your screen
- Show yourself completing any 3 tasks from the list below
- Submit the recording to Canvas along with your completed file

D1 — Manage Documents

21 points (8 tasks)

2 Task 1 — Set 1-inch margins

WHY THIS MATTERS

Consistent 1-inch margins give the proposal a clean, professional appearance expected in a formal business document.

WHERE TO FIND IT

Layout tab → Page Setup group → Margins → Custom Margins → set all four margins to 1" → OK.

HOW YOU'LL KNOW IT WORKED

The ruler shows the 1-inch margin boundary on all four sides of the page.

2 Task 2 — Set orientation to Portrait for most pages

WHY THIS MATTERS

Portrait orientation is standard for proposal documents that are primarily text, reserving Landscape only for wide tables like the budget breakdown.

WHERE TO FIND IT

Layout tab → Page Setup group → Orientation → Portrait.

HOW YOU'LL KNOW IT WORKED

The main pages of the proposal are taller than they are wide.

2 Task 3 — Apply the "Lines (Stylish)" style set

WHY THIS MATTERS

A style set changes the fonts and colors of all built-in styles at once, giving the proposal a polished, on-brand appearance with one click.

WHERE TO FIND IT

Design tab → Document Formatting group → the Style Sets gallery → hover to preview → select "Lines (Stylish)."

HOW YOU'LL KNOW IT WORKED

The document's heading fonts and colors change to match the Lines (Stylish) theme.

4 Task 4 — Insert header with Oasis Events logo placeholder and proposal number

WHY THIS MATTERS

A header with the company identity and a unique proposal number helps the client and internal staff track and reference this specific document.

WHERE TO FIND IT

Insert tab → Header & Footer group → Header → Edit Header → insert the logo placeholder and type the proposal number.

HOW YOU'LL KNOW IT WORKED

Every page shows the logo placeholder and proposal number in the header.

3 Task 5 — Insert footer: "Oasis Events · Confidential · Page X of Y"

WHY THIS MATTERS

A footer with the company name, confidentiality notice, and page count appears on every page, even if pages are separated when printed.

WHERE TO FIND IT

Insert tab → Header & Footer group → Footer → Edit Footer → type "Oasis Events · Confidential · Page " then insert Page Number and "of" then Number of Pages.

HOW YOU'LL KNOW IT WORKED

Every page's footer reads "Oasis Events · Confidential · Page X of Y" with the correct numbers.

2 Task 6 — Insert page numbers in the footer

WHY THIS MATTERS

Page numbers let the client and team reference a specific page when discussing the proposal.

WHERE TO FIND IT

While in the footer, place your cursor where the number should go → Header & Footer tab → Page Number → Current Position.

HOW YOU'LL KNOW IT WORKED

Each page shows its correct page number in the footer.

3 Task 7 — Add a light "PROPOSAL" watermark to all pages

WHY THIS MATTERS

A watermark clearly marks the document as a proposal (not a finalized contract) on every page, even if pages are printed or forwarded individually.

WHERE TO FIND IT

Design tab → Page Background group → Watermark → Custom Watermark → Text Watermark → type "PROPOSAL" → OK.

HOW YOU'LL KNOW IT WORKED

A faded, diagonal "PROPOSAL" watermark appears behind the text on every page.

3 Task 8 — Set document properties: Title = "Corporate Gala Proposal", Company = "Oasis Events"

WHY THIS MATTERS

Document properties store metadata about the proposal — useful for identifying the file and the client engagement it belongs to.

WHERE TO FIND IT

File → Info → Properties panel → set Title to "Corporate Gala Proposal" and Company to "Oasis Events."

HOW YOU'LL KNOW IT WORKED

The Properties panel shows the typed Title and Company values.

D2 — Format Text & Paragraphs

21 points (7 tasks)

2 Task 9 — Find & Replace: "TBD" → specific venue details

WHY THIS MATTERS

Replacing every placeholder "TBD" with the actual confirmed venue details ensures the final proposal looks complete and professional, not unfinished.

WHERE TO FIND IT

Home tab → Editing group → Replace → type "TBD" in Find, type the venue detail in Replace → Replace All.

HOW YOU'LL KNOW IT WORKED

No instance of "TBD" remains anywhere in the proposal.

2

Task 10 — Apply Title style to the proposal title

WHY THIS MATTERS

The built-in Title style formats the proposal's main title distinctly from body text, giving it visual prominence on the cover page.

WHERE TO FIND IT

Click into the title text → Home tab → Styles gallery → Title.

HOW YOU'LL KNOW IT WORKED

The title's font and size visibly change to match the Title style preview in the gallery.

4

Task 11 — Apply Heading 1 to each proposal section

WHY THIS MATTERS

Heading 1 marks each major section of the proposal, which is required for the Table of Contents to find and list them correctly.

WHERE TO FIND IT

Click into each section title → Home tab → Styles gallery → Heading 1.

HOW YOU'LL KNOW IT WORKED

All section titles share the same Heading 1 font, size, and color.

4

Task 12 — Apply Heading 2 to subsections

WHY THIS MATTERS

Heading 2 marks subsections within a proposal section, creating a clear visual hierarchy beneath each Heading 1.

WHERE TO FIND IT

Click into each subsection title → Home tab → Styles gallery → Heading 2.

HOW YOU'LL KNOW IT WORKED

Subsection titles appear smaller than section titles but still visually distinct from body text.

2

Task 13 — Set body text line spacing to 1.5

WHY THIS MATTERS

1.5 line spacing makes a long proposal more comfortable to read than single spacing, without using as much paper as full double spacing.

WHERE TO FIND IT

Select the body text → Home tab → Paragraph group → Line and Paragraph Spacing → 1.5.

HOW YOU'LL KNOW IT WORKED

There is visibly more vertical space between lines than single spacing, but less than double spacing.

3 Task 14 — Apply text effects (shadow) to the proposal title

WHY THIS MATTERS

A shadow text effect gives the proposal title a polished, dimensional look appropriate for a client-facing cover page.

WHERE TO FIND IT

Select the title text → Home tab → Font group → Text Effects and Typography (the colorful "A") → choose a Shadow preset.

HOW YOU'LL KNOW IT WORKED

The title text now shows a visible drop shadow behind the letters.

4 Task 15 — Insert section break before Budget section; change to Landscape

WHY THIS MATTERS

The budget table has many columns and reads more clearly on a wider Landscape page, while the rest of the proposal stays in standard Portrait.

WHERE TO FIND IT

Click right before the Budget section heading → Layout tab → Breaks → Section Breaks → Next Page. Then, with your cursor still in that new section, Layout tab → Orientation → Landscape.

HOW YOU'LL KNOW IT WORKED

Only the Budget section's pages are wider than tall; the sections before and after remain Portrait.

D3 — Tables & Lists

17 points (6 tasks)

4 Task 16 — Create 5-column budget breakdown table

WHY THIS MATTERS

A table with five columns can show each budget line item alongside cost, quantity, and other details side by side, far clearer than a written list.

WHERE TO FIND IT

Insert tab → Tables group → Table → drag to select 5 columns and the number of rows needed → click to insert.

HOW YOU'LL KNOW IT WORKED

A table with 5 distinct columns and visible borders appears in the document.

3 Task 17 — Merge header row cells for "Budget Summary"

WHY THIS MATTERS

Merging the header row into one wide cell lets a single title span the full width of the table, clearly labeling the budget data below.

WHERE TO FIND IT

Select all cells in the top row → Table Layout tab → Merge group → Merge Cells.

HOW YOU'LL KNOW IT WORKED

The top row appears as one single wide cell instead of five separate cells.

3

Task 18 — Sort vendor table by cost lowest to highest

WHY THIS MATTERS

Sorting vendors from lowest to highest cost makes it easy for the client to quickly identify the most budget-friendly options.

WHERE TO FIND IT

Click inside the table → Table Layout tab → Data group → Sort → choose the cost column → Ascending → OK.

HOW YOU'LL KNOW IT WORKED

Rows are now ordered from the lowest cost at the top to the highest at the bottom.

2

Task 19 — Create numbered timeline of event day activities

WHY THIS MATTERS

A numbered list shows the event's activities in clear chronological order, which the client can follow step by step on the day of the gala.

WHERE TO FIND IT

Type each activity on its own line in order → select all the lines → Home tab → Numbering button.

HOW YOU'LL KNOW IT WORKED

Each event-day activity is preceded by a sequential number (1, 2, 3...).

2

Task 20 — Create bulleted list of included services

WHY THIS MATTERS

A bulleted list presents the included services as distinct, scannable items rather than a dense paragraph the client has to read carefully to parse.

WHERE TO FIND IT

Type each service on its own line → select all the lines → Home tab → Bullets button.

HOW YOU'LL KNOW IT WORKED

Each included service is preceded by a bullet point (•) instead of a number.

3

Task 21 — Change bullet format for premium services to custom symbol

WHY THIS MATTERS

A distinct custom symbol (instead of the standard round bullet) visually sets the premium services apart as a special, upgraded tier.

WHERE TO FIND IT

Select the premium services list → Home tab → Bullets dropdown arrow → Define New Bullet → Symbol → choose a distinct symbol (e.g., a star) → OK.

HOW YOU'LL KNOW IT WORKED

The premium services list shows the custom symbol instead of the standard round bullet.

D4 — References 12 points (3 tasks)

4

Task 22 — Insert Table of Contents for the proposal

WHY THIS MATTERS

A Table of Contents lets the client quickly jump to any section of the proposal — pricing, timeline, services — without paging through the whole document.

WHERE TO FIND IT

Click on a blank page after the cover → References tab → Table of Contents group → Table of Contents → Automatic Table 1.

HOW YOU'LL KNOW IT WORKED

A list of section titles with page numbers appears, generated automatically from your Heading styles.

4

Task 23 — Customize TOC: right-aligned page numbers with dot leaders

WHY THIS MATTERS

Right-aligned page numbers connected to each entry by a dotted line is the classic, professional formal-document TOC style clients expect.

WHERE TO FIND IT

Click inside the existing TOC → References tab → Table of Contents → Custom Table of Contents → confirm "Right align page numbers" is checked and the Tab leader is set to dots → OK → Yes to replace.

HOW YOU'LL KNOW IT WORKED

Each TOC entry has a dotted line leading from the title to a right-aligned page number.

4

Task 24 — Insert footnote on pricing section noting terms and conditions

WHY THIS MATTERS

A footnote lets the proposal reference its terms and conditions exactly where pricing is discussed, without cluttering the main pricing text.

WHERE TO FIND IT

Click right after the pricing text → References tab → Footnotes group → Insert Footnote → type the terms and conditions note.

HOW YOU'LL KNOW IT WORKED

A small superscript number appears next to the pricing text, with a matching note at the bottom of the page.

D5 — Graphic Elements

18 points (4 tasks)

4 Task 25 — Insert venue floor plan image on Event Layout page

WHY THIS MATTERS

A floor plan image shows the client exactly how the venue will be arranged, which is far clearer than describing the layout in words.

WHERE TO FIND IT

Insert tab → Illustrations group → Pictures → This Device → select the floor plan image file → Insert.

HOW YOU'LL KNOW IT WORKED

The floor plan image appears in the document on the Event Layout page.

2 Task 26 — Set text wrapping to Square for floor plan image

WHY THIS MATTERS

Square wrapping lets body text flow neatly around all sides of the floor plan image's rectangular boundary, instead of the image blocking the text or floating awkwardly.

WHERE TO FIND IT

Click the image to select it → Picture Format tab → Arrange group → Wrap Text → Square.

HOW YOU'LL KNOW IT WORKED

Body text wraps neatly around all four sides of the image's bounding box.

4 Task 27 — Insert text box with Oasis Events tagline on cover page

WHY THIS MATTERS

A text box lets the tagline be positioned and styled independently of the surrounding paragraph text, giving the cover page a polished, marketing feel.

WHERE TO FIND IT

Insert tab → Text group → Text Box → Draw Text Box → draw it on the cover page → type the Oasis Events tagline.

HOW YOU'LL KNOW IT WORKED

A text box containing the tagline appears on the cover page, separate from the regular body paragraphs.

8 Task 28 — Add alt text to all graphic elements

WHY THIS MATTERS

Alt text describes each image and graphic for screen readers, making the proposal accessible to all reviewers and meeting accessibility requirements.

WHERE TO FIND IT

Right-click each image, shape, or text box → Edit Alt Text → type a clear description.

HOW YOU'LL KNOW IT WORKED

Every graphic element has a description entered in its Alt Text panel.

D6 — Collaboration 11 points (4 tasks)

2

Task 29 — Add comment on budget table flagging item for client approval

WHY THIS MATTERS

A comment lets you flag a specific budget line item for the client's attention without altering the actual proposal text.

WHERE TO FIND IT

Select the budget line item → Review tab → Comments group → New Comment → type your note requesting approval.

HOW YOU'LL KNOW IT WORKED

A comment balloon appears attached to the budget item with your note visible.

2

Task 30 — Reply to comment from sales manager

WHY THIS MATTERS

Replying within the same comment thread keeps the conversation about that specific feedback organized and easy for the team to follow.

WHERE TO FIND IT

Click on the existing comment from the sales manager → click Reply → type your response.

HOW YOU'LL KNOW IT WORKED

Your reply appears nested underneath the original comment in the same thread.

3

Task 31 — Add a comment confirming the budget item has been approved

WHY THIS MATTERS

A separate confirmation comment creates an audit trail showing that the budget item was independently reviewed and approved by the team, distinct from the original review-request thread.

WHERE TO FIND IT

Select the approved budget item (e.g., the venue rental line) → Review tab → Comments group → New Comment → type a confirmation that the item has been approved.

HOW YOU'LL KNOW IT WORKED

A third comment balloon appears confirming the approval, distinct from the earlier review-request thread.

4

Task 32 — Enable Track Changes; revise contract terms section

WHY THIS MATTERS

Track Changes records every edit as a visible insertion or deletion, so the team can see exactly what changed in the contract terms before final approval.

WHERE TO FIND IT

Review tab → Tracking group → Track Changes → turn it on → revise the contract terms section text.

HOW YOU'LL KNOW IT WORKED

Your edits appear as colored, underlined insertions and struck-through deletions rather than silently replacing the original text.
