1 Find & Replace Text

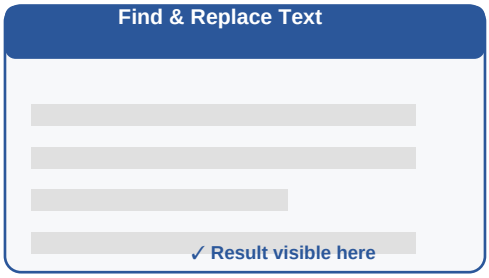
Home →

Your Task: The abbreviation "DSC" appears throughout the report. Replace all instances with "Desert Sun Consulting" using Find & Replace.

STEP-BY-STEP INSTRUCTIONS

1. Press Ctrl+H to open Find & Replace.
2. In Find what type: DSC
3. In Replace with type: Desert Sun Consulting
4. Click Replace All.
5. Click OK on the confirmation dialog.

WHAT THE RESULT LOOKS LIKE



Word confirms the number of replacements made. All "DSC" instances now read "Desert Sun Consulting" throughout the document.

2 Apply Paragraph Styles

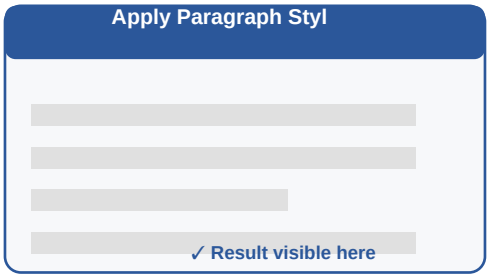
Home →

Your Task: Apply Heading 1 to all major section headers and Heading 2 to all subsection headers to structure the document.

STEP-BY-STEP INSTRUCTIONS

1. Click inside a section header (e.g., Executive Summary).
2. Home tab → Styles group → click Heading 1.
3. Repeat for each major section heading.
4. Apply Heading 2 to subsection headings.

WHAT THE RESULT LOOKS LIKE



Section headers display in the blue Heading 1 style. The Navigation Pane (View → Navigation Pane) shows the document outline with all headings listed.

3 Apply Character Style

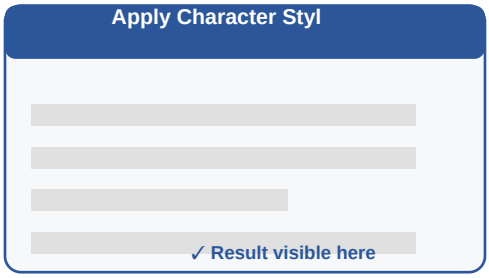
Home →

Your Task: Apply the Intense Quote character style to the direct quotation from the CEO to make it stand out from body text.

STEP-BY-STEP INSTRUCTIONS

1. Select the quotation text.
2. Home tab → Styles group → click the More arrow (■) to expand the gallery.
3. Find and click Intense Quote.
4. The formatting applies to selected text only.

WHAT THE RESULT LOOKS LIKE



The selected quotation text appears in a distinct indented, colored, or italic style that differentiates it from surrounding body text.

4 Set Line Spacing

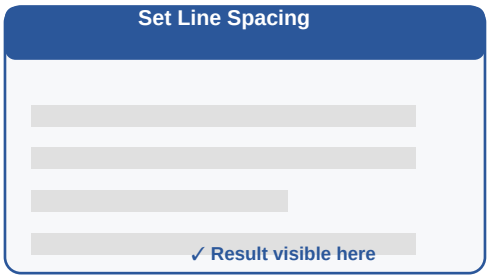
Home →

Your Task: Set the body text line spacing to 1.15 throughout the report to improve readability.

STEP-BY-STEP INSTRUCTIONS

1. Select all body text (Ctrl+A, or select specific paragraphs).
2. Home tab → Paragraph group → Line and Paragraph Spacing button.
3. Choose 1.15 from the dropdown.
4. Or use the Paragraph dialog (■): Line spacing → Multiple, At: 1.15

WHAT THE RESULT LOOKS LIKE



The body text lines are slightly more spaced. The Line Spacing button in the Paragraph group reflects the current setting.

5 Set Paragraph Spacing

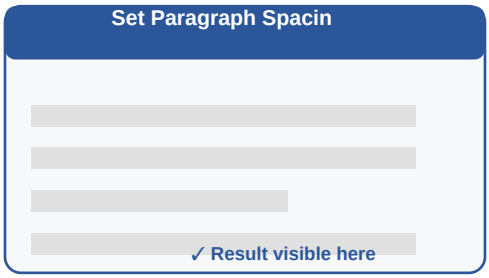
Home →

Your Task: Add 6pt of space after each paragraph so content blocks are visually separated without blank lines.

STEP-BY-STEP INSTRUCTIONS

1. Select all text (Ctrl+A).
2. Home → Paragraph group → Line and Paragraph Spacing → Add Space After Paragraph.
3. Or: Paragraph dialog (■) → Spacing After: 6 pt → OK.

WHAT THE RESULT LOOKS LIKE



Small gaps appear between all paragraphs. The document looks more open and professional without blank lines between sections.

6 Set Indentation

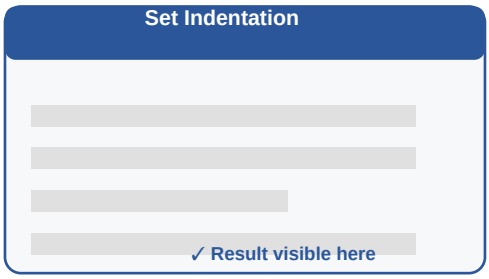
Layout →

Your Task: Indent the highlighted paragraph 0.5 inches from the left margin to distinguish it from surrounding text.

STEP-BY-STEP INSTRUCTIONS

1. Click in the paragraph to indent.
2. Layout tab → Paragraph group → Indent Left: type 0.5".
3. Or drag the Left Indent marker on the ruler to the 0.5" mark.
4. Or use Home → Paragraph dialog (■) → Indentation Left: 0.5"

WHAT THE RESULT LOOKS LIKE



The paragraph shifts 0.5 inches from the left margin. The ruler shows the left indent marker at the 0.5" position.

7 Use Format Painter

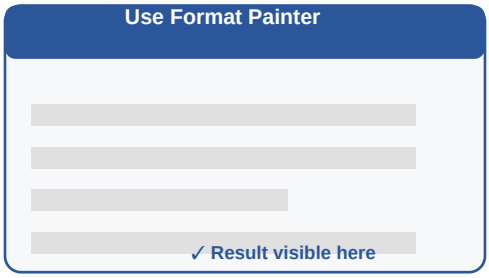
Home →

Your Task: Copy the formatting from the Executive Summary heading and apply it identically to the Conclusion heading.

STEP-BY-STEP INSTRUCTIONS

1. Click inside the Executive Summary heading (the source text).
2. Home → Clipboard group → click Format Painter (paintbrush icon).
3. Your cursor becomes a paintbrush.
4. Click inside the Conclusion heading to apply the formatting.
5. Tip: Double-click Format Painter to apply to multiple areas.

WHAT THE RESULT LOOKS LIKE



The Conclusion heading now has identical formatting to the Executive Summary heading. The Format Painter cursor returns to normal after use.

8 Apply Text Effects

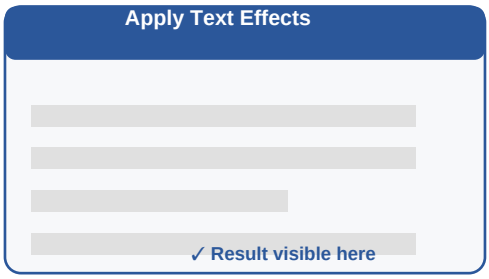
Home →

Your Task: Apply a shadow text effect to the document title to give it a polished, professional appearance.

STEP-BY-STEP INSTRUCTIONS

1. Select the document title text.
2. Home → Font group → Text Effects and Typography button (glowing A icon).
3. Point to Shadow.
4. Choose a shadow style (e.g., Offset: Bottom Right).

WHAT THE RESULT LOOKS LIKE



The title displays a subtle shadow effect visible on screen and in print preview.

9 Insert Page Break

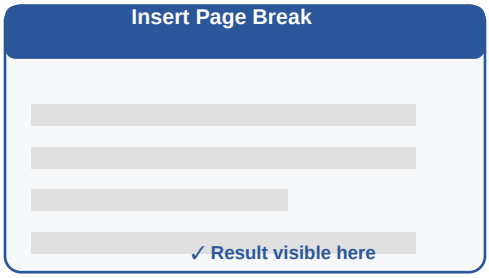
Insert →

Your Task: Insert a page break before the Financial Summary section so it always starts at the top of a new page.

STEP-BY-STEP INSTRUCTIONS

1. Click at the very beginning of the Financial Summary heading.
2. Press Ctrl+Enter.
3. Or: Insert tab → Pages group → Page Break.

WHAT THE RESULT LOOKS LIKE



The Financial Summary section begins at the top of a new page. A page break marker is visible when formatting marks are shown (Ctrl+*).

10 Insert Section Break

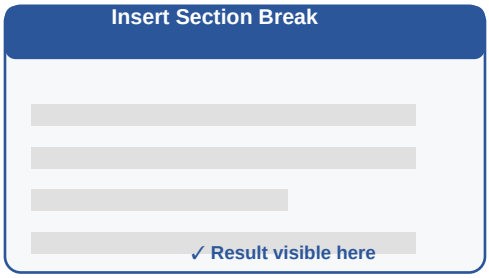
Layout →

Your Task: Insert a Next Page section break before the Financial Summary so that section can be formatted as Landscape.

STEP-BY-STEP INSTRUCTIONS

1. Click at the start of the Financial Summary heading.
2. Layout tab → Page Setup → Breaks → Next Page (under Section Breaks).
3. Click inside the Financial Summary section.
4. Layout tab → Orientation → Landscape.

WHAT THE RESULT LOOKS LIKE



The Financial Summary section displays in Landscape orientation. The rest of the document remains in Portrait. Both orientations are visible when scrolling.

11 Format Text in Columns

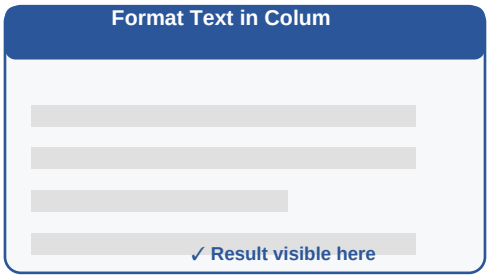
Layout →

Your Task: Format the Services Offered section into two columns for a more compact, readable layout.

STEP-BY-STEP INSTRUCTIONS

1. Select the text in the Services section.
2. Layout tab → Page Setup → Columns.
3. Choose Two.

WHAT THE RESULT LOOKS LIKE



The selected text reflows into two side-by-side columns. A column break can be added (Layout → Breaks → Column) to control flow.

12 Change List Format

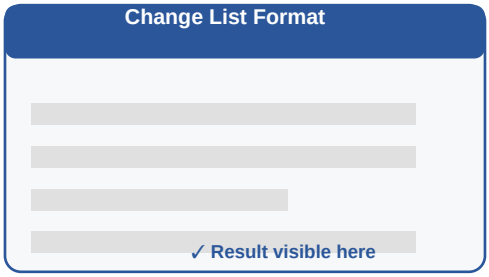
Home →

Your Task: Change the bullet symbol for the services sub-list to a custom checkmark character.

STEP-BY-STEP INSTRUCTIONS

1. Select the sub-list items.
2. Home → Paragraph group → dropdown arrow next to Bullets.
3. Click Define New Bullet → Symbol.
4. Choose a checkmark (✓) → OK → OK.

WHAT THE RESULT LOOKS LIKE



The list bullets change to the checkmark symbol for all selected items.

13 Increase List Level

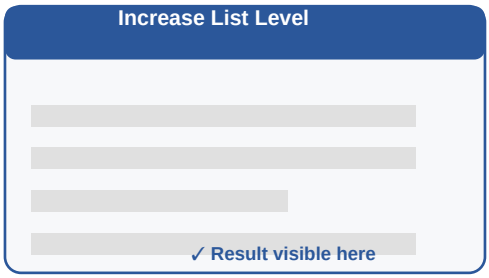
Home →

Your Task: Indent the sub-services under each main service to create a two-level bulleted list.

STEP-BY-STEP INSTRUCTIONS

1. Select the sub-service items to indent.
2. Home → Paragraph group → Increase Indent button.
3. Or press Tab while your cursor is in the list item.

WHAT THE RESULT LOOKS LIKE



Sub-items indent one level under their parent with a different bullet character, creating a clear visual hierarchy.

14 Restart List Numbering

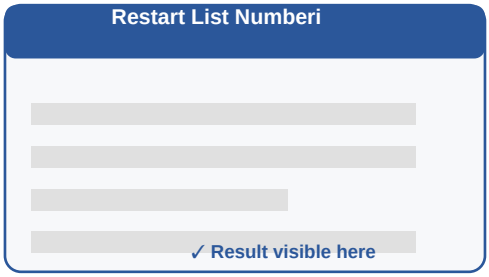
Right-clic

Your Task: Restart the Q1 Action Items numbered list at 1 so it is independent of the Strategic Objectives list.

STEP-BY-STEP INSTRUCTIONS

1. Right-click the first item of the second numbered list.
2. Choose Restart at 1 from the context menu.
3. Or: Numbering dropdown → Set Numbering Value → Start new list → 1.

WHAT THE RESULT LOOKS LIKE



The second list starts at 1. Both numbered lists are independent of each other.

15 Apply Style Set

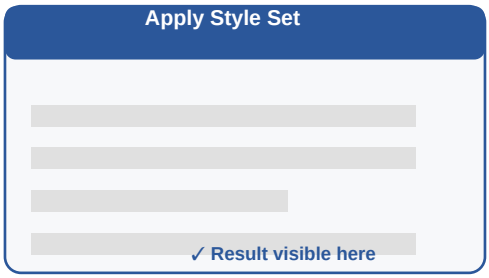
Design →

Your Task: Apply the "Basic (Stylish)" style set to give the entire document a consistent professional look.

STEP-BY-STEP INSTRUCTIONS

1. Click the Design tab.
2. In the Document Formatting group, find the Style Sets gallery.
3. Hover over options to preview.
4. Click Basic (Stylish) to apply.

WHAT THE RESULT LOOKS LIKE



All heading and body styles update consistently throughout the document to match the chosen style set.

16 Navigate with Go To

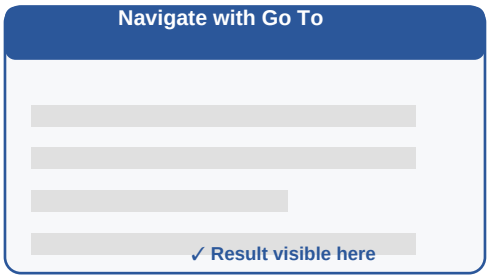
Home →

Your Task: Jump directly to page 5 of the document using the Go To feature.

STEP-BY-STEP INSTRUCTIONS

1. Press Ctrl+G (or F5) to open Find and Replace on the Go To tab.
2. Under Go to what, select Page.
3. Type 5 in the Enter page number box.
4. Click Go To, then Close.

WHAT THE RESULT LOOKS LIKE



The document scrolls to page 5. The status bar at the bottom confirms the current page number.
