Excel Project — Variation 1

CSN · SOC 101 Grade Book

Microsoft Excel Associate (MO-210) · 26 tasks · 100 points

Scenario. You are a teaching assistant at the College of Southern Nevada. Complete the SOC 101 grade book so every score, average, and letter grade calculates automatically.

Open **Excel_Core1_Starter.xlsx** in Microsoft Excel and complete every task below. Each task lists the ribbon path and its point value. When finished, save the file and upload it to the Core 1 grader for instant scoring.

E1 — Manage Worksheets & Workbooks

1. Freeze the header row and the student-name column — **3** pt

`View → Freeze Panes`

2. Add a comment on the curve column explaining the adjustment — **3** pt

`Review → New Comment`

23. Add a header with the course name and a footer page number — **4** pt

`Insert → Header & Footer`

24. Set Title and Author workbook properties — **3** pt

`File → Info → Properties`

E2 — Manage Data Cells & Ranges

3. Format the percentage columns with the Percent number format — **2** pt

`Home → Number group`

4. Highlight failing scores (below 60) in red — **3** pt

`Home → Conditional Formatting`

5. Name the grade-scale lookup range "GradeScale" — **3** pt

`Formulas → Define Name (or Name Box)`

6. Use the GradeScale named range inside a lookup formula — **3** pt

7. Wrap text in the instructor-feedback column — **2** pt

`Home → Wrap Text`

22. Bold and shade the header row — **3** pt

`Home → Font group / Format Cells (Ctrl+1)`

26. Center the score columns — **8** pt

`Home → Alignment group`

E3 — Manage Tables & Table Data

8. Convert the grade data to an Excel Table — **3** pt

`Insert → Table (Ctrl+T)`

9. Sort by final grade (desc) then last name (asc) — **3** pt

`Data → Sort → Add Level`

25. Filter to students currently failing for an intervention list — **3** pt

`Header dropdown → Filter`

E4 — Formulas & Functions

10. Use SUM and AVERAGE to total and average each student's scores — **6** pt

`Home → AutoSum`

11. Use COUNT/COUNTA to tally submitted assignments per student — **4** pt

`Formulas → More Functions → Statistical`

12. Use an absolute reference to the total-points cell in the percentage formula — **4** pt

`Type $ in reference (F4 to toggle)`

13. Use IF to mark each student Pass or Fail — **5** pt

`Formulas → Logical → IF`

14. Use a nested IF to assign letter grades A–F — **6** pt

`Formulas → Logical → IF (nested)`

15. Use COUNTIF to count how many students earned an A — **4** pt

`Formulas → Statistical → COUNTIF`

16. Use VLOOKUP against the grade scale to return each letter grade — **6** pt

`Formulas → Lookup & Reference → VLOOKUP`

17. Wrap the VLOOKUP in IFERROR to show "Check" on errors — **5** pt

`Formulas → Logical → IFERROR`

18. Use TODAY() to stamp the report-generated date — **3** pt

`Formulas → Date & Time → TODAY`

E5 — Manage Charts

19. Create a Column chart of class average by assignment — **4** pt

`Insert → Charts → Column`

20. Add data labels and a chart title — **4** pt

`Chart Design → Add Chart Element`

21. Add alternative text to the class-average chart — **3** pt

`Right-click chart → Edit Alt Text`

Total: 100 points · 26 tasks
